Summary

Technology executive with two decades of experience transforming enterprises across the GCC region. I build organizations that deliver measurable impact—SAR 1.2B in efficiency gains, teams of 350+ across eight countries, and technology investments exceeding SAR 500M. My focus: aligning digital strategy with business outcomes, whether through AI implementation, cloud transformation, or post-merger integration. Currently seeking opportunities to lead enterprise-wide transformation in alignment with Saudi Vision 2030.

Experience

Chief Technology Officer 2019 – Present

Al-Madar Industrial Group — Dammam

- Led SAR 800M digital transformation across 12 business units—45% cost reduction, 99.99% uptime
- Built AI Center of Excellence; 15 ML models in production improving forecast accuracy from 72% to 94%
- Migrated 200+ applications to hybrid cloud, saving SAR 45M annually in infrastructure costs
- Directed technology integration for SAR 1.6B in acquisitions; unified 8 ERPs in 18 months
- Achieved ISO 27001 and SOC 2 certifications; zero data breaches across tenure
- Scaled team from 120 to 280 across four countries; 91% retention rate

Vice President, Technology & Digital 2014 – 2018

Saudi National Petroleum Services — Al Khobar

- Deployed IoT predictive maintenance across 2,400 assets—52% downtime reduction, SAR 120M savings
- Delivered SAR 85M SAP implementation on-time, 12% under budget, 98% adoption
- Founded innovation lab with KFUPM; commercialized 3 ventures generating SAR 25M revenue
- Consolidated 45 vendors to 12 strategic partners, reducing procurement costs by 28%

Director, IT Infrastructure & Operations 2009 – 2014

Gulf Investment Corporation — Kuwait City

- Built Tier III data center (USD 18M)—99.995% uptime, 150% capacity growth
- Virtualization initiative: 70% server reduction, USD 1.2M annual energy savings
- Designed business continuity framework; executed successfully during 2011 regional crisis

Senior Manager, Applications Development 2004 – 2009

Al Rajhi Bank — Riyadh

- Launched Saudi's first mobile banking app—500K downloads, SAR 2B monthly transactions
- Rolled out Temenos T24 across 500+ branches with zero service disruption
