PROFESSIONAL SUMMARY

Results-driven Senior Project Manager with 12+ years of progressive experience delivering complex infrastructure and construction projects across Saudi Arabia and the GCC. Proven expertise in managing project portfolios valued at SAR 500M+, leading cross-functional teams of 80+ professionals, and achieving consistent on-time, on-budget delivery rates exceeding 95%. Certified PMP and PgMP with deep knowledge of Aramco standards, FIDIC contracts, and Vision 2030 mega-project requirements. Recognized for driving SAR 45M in cost savings through strategic value engineering while maintaining zero LTI safety records. Seeking to leverage program management expertise to deliver transformational infrastructure projects aligned with Saudi Arabia's national development objectives.

CORE COMPETENCIES

Project Portfolio Management | P&L Oversight (SAR 150M+) | Stakeholder Management | Contract Negotiation (FIDIC/NEC) | Risk Management | Earned Value Management (EVM) | Lean Construction | Value Engineering | HSE Leadership | Team Building (80+ personnel) | Vendor Management | Digital Project Controls | Primavera P6 | MS Project | SAP PS | Aramco Standards Compliance | Vision 2030 Alignment

PROFESSIONAL EXPERIENCE

Senior Project Manager

Al-Rashid Trading & Contracting Company (RTCC) | Riyadh, Saudi Arabia | *03/2020 – Present*

- Spearheaded delivery of SAR 180M water transmission pipeline project for National Water Company (NWC), achieving completion 6 weeks ahead of schedule and SAR 12M under budget through strategic resource optimization and parallel work execution
- Directed SAR 120M substation construction project for Saudi Electricity Company (SEC), coordinating 45 subcontractors and achieving 99.2% quality compliance score on first-time inspections
- Implemented Lean Construction methodology across project portfolio, reducing waste by 28% and improving productivity by 22%, resulting in SAR 18M cumulative cost savings over 4 years
- Achieved 4.2 million man-hours with zero Lost Time Injuries (LTI), earning SEC HSE Excellence Award (2022) and establishing new company safety benchmark
- Developed and mentored team of 12 Saudi project engineers through structured development program, with 8 achieving PMP certification and 3 promoted to Project Manager roles (Saudization initiative)

Project Manager

Saudi Binladin Group (SBG) | Jeddah / Makkah, Saudi Arabia | *06/2016 – 02/2020*

- Delivered SAR 280M 5-star hotel development in Makkah Central Zone, managing complex logistics within restricted holy site access windows and achieving handover 3 weeks ahead of Hajj season deadline
- Managed SAR 95M commercial complex fit-out project, coordinating 28 specialist subcontractors and achieving 97% client satisfaction score through proactive communication and change management
- Negotiated SAR 15M in favorable contract variations through detailed claims management and documentation, recovering 100% of legitimate cost escalations
- Introduced digital project controls dashboard reducing reporting cycle time from 5 days to real-time, improving executive decision-making and stakeholder transparency
- Led value engineering workshops identifying SAR 22M in cost optimization opportunities while maintaining design intent and quality specifications

Assistant Project Manager

Nesma & Partners Contracting Co. Ltd. | Dammam / Jubail, Saudi Arabia | *08/2012 – 05/2016*

- Supported delivery of SAR 450M SABIC industrial facility expansion, managing civil and structural packages worth SAR 85M with 100% milestone achievement
- Coordinated procurement of SAR 120M in materials and equipment, achieving 15% cost savings through strategic vendor negotiations and bulk purchasing agreements
- Implemented Earned Value Management (EVM) system improving cost/schedule forecasting accuracy from 78% to 94%, enabling proactive risk mitigation
- Achieved IKTVA compliance score of 42% through local supplier development program, qualifying 18 new Saudi vendors for Aramco-approved supplier list

Project Engineer / Site Engineer

Al-Khodari Sons Company | Riyadh, Saudi Arabia | *07/2010 – 07/2012*

- Managed site operations for SAR 45M road construction project, supervising crew of 35 workers and achieving 98% quality acceptance rate on asphalt works
- Developed detailed construction schedules and progress tracking systems, improving schedule adherence from 82% to 96%

KEY PROJECT ACHIEVEMENTS

- Total project value delivered: SAR 1.2B+ across 25+ projects over 12-year career
- On-time delivery rate: 96% (vs. industry average of 72%)
- On-budget delivery rate: 94% with cumulative SAR 45M in documented cost savings
- Safety record: 8+ million man-hours with zero fatalities; 2 HSE Excellence Awards

EDUCATION

Master of Business Administration (MBA) – Project Management Concentration
King Fahd University of Petroleum and Minerals (KFUPM), Dhahran, *2015*

Bachelor of Science in Civil Engineering
King Saud University (KSU), Riyadh, *2012*

PROFESSIONAL CERTIFICATIONS

- Program Management Professional (PgMP) – Project Management Institute (PMI)
- Project Management Professional (PMP) – Project Management Institute (PMI)
- PRINCE2 Practitioner – AXELOS
- Lean Six Sigma Green Belt – ASQ
- NEBOSH International General Certificate in Occupational Health and Safety
- Saudi Council of Engineers – Registered Professional Engineer

PROFESSIONAL AFFILIATIONS

- Project Management Institute (PMI) – Saudi Arabia Chapter, Board Member (2022-Present)
- Saudi Council of Engineers – Active Member
- Chartered Institute of Building (CIOB) – Member
